## HOLDING TANK M35

- ① MOUNT HOLDING TANK ON BULKHEAD IN STABBOARD LAZARETTE LOCKER HAVING ALREADY FITTED ANY NECESSARY INLETS/OUTLETS.
- ② Run pipework from TOILET OUTLET TO TANK INLET (THIS MAY REQUIRE 'Y' CHANGEOVER IF DIRECT OVERBOARD FACILITY IS STILL REQUIRED).
- ③ Run BREATHER FROM TANK TO SUITABLE POSITION AND FITTING.
- ④ Fit outlet pump AS REQUIRED.
- ⑤ Run outlet pipework to pump
- ⑥ Fit outlet SEA COCK TO SUITABLE POSITION (THIS MAY BE ORIGINAL SEA COCK IF CHANGEOVER FOR DIRECT OVERBOARD IS NOT REQUIRED)
- ⑦ Run pipework from outlet pump to outlet SEA COCK.
- ⑧ If REQUIRED fit DECK DISCHARGE FITTING AND OUTLET HOSE TO CONNECT.
- ⑨ ENSURE ALL FITTINGS AND CONNECTIONS ARE DOUBLE CLIPPED WITH STAINLESS STEEL HOSE CLIPS.
- ⑩ ENSURE ALL HOSES GOING TO SEA COCKS ARE 'SWAN NECKED' ABOVE WATER LINE AT ALL ANGLES OF HEEL TO AVOID SIPHONAGE OF SEAWATER INTO BOAT
- ⑪ ENSURE ALL PIPE RUNS ARE CLIPPED, FOR SUPPORT AND TO AVOID CHAFF, AT REGULAR INTERVALS.
- ⑫ TEST SYSTEM WITH WATER PRIOR TO USE WITH EFFLUENT.

\* Not fitted as standard - 'Seawolf' to be replaced March 1991.

### *Using the windlass*

It is recommended that your anchor chain is suitably marked to indicate the amount of chain you have out while at anchor.

When lying at anchor in a heavy swell the chain will snatch either causing chain slip or excessive loads to be applied to the windlass. For safety it is recommended that a rope bridle be applied to transfer the load to a cleat.

### *Below decks*

#### *Upholstery*

Your yacht has been upholstered with either the Christiana, Ravenna, Dash or Onyx range of materials. They all meet the Fire and Safety Regulation Act and have been tested to BS5852 PT1. For information on care of your upholstery refer to the maintenance section.

## *Running rigging*

---

The running rigging comprises all the lines and relative mechanics used to hoist and control the sails, this includes halyards, sheets, guys, lifts, downhauls and outhauls together with their various shackles, blocks, cleats and winches. It is essential that they are inspected regularly for any signs of wear or stress. Information on types of cordage, wire ropes and fittings can be gained from a good chandler.

## *Sails*

---

All yachts are supplied with Lucas sails which are manufactured from woven dacron. This material has good tensile strength, resists abrasion and is not unduly affected by moisture, however, it can be damaged by ultra-violet light and should not therefore be exposed unnecessarily to sunlight. If treated with care and maintained correctly these sails should give many seasons good service.

---

## *Constellation Systems*

---

The Whitlock Constellation 400 system, comprises a pedestal complete with friction brake and conduit plate assembly.

The system consists of:

Engine control and guard rail.

2-turn tangential Unit.

12" or 15" quadrant in either aluminium or bronze, bored and keyed to suit rudder stock.

2 or 3 conduits with fittings and 6 mm or 8 mm stainless steel wire.

On some yachts, a 6" double conduit to sheave adaptor.

2 or 3 turn, 5/8" pitch, stainless steel chain assembly (see illustration on page 3.7).

## *Dual station steering systems*

---

| Yacht      | Model                 | Wheel Size (Cockpit) | Wheel Size (Inside) |
|------------|-----------------------|----------------------|---------------------|
| Eclipse 33 | Cobra 5R Delux        | 36"                  | 18"                 |
| Eclipse 38 | Cobra 5R Delux        | 40"                  | 20"                 |
| Eclipse 43 | Cobra 5R ISS Prestige | 40"                  | 20"                 |

## *Inside Steering Station*

---

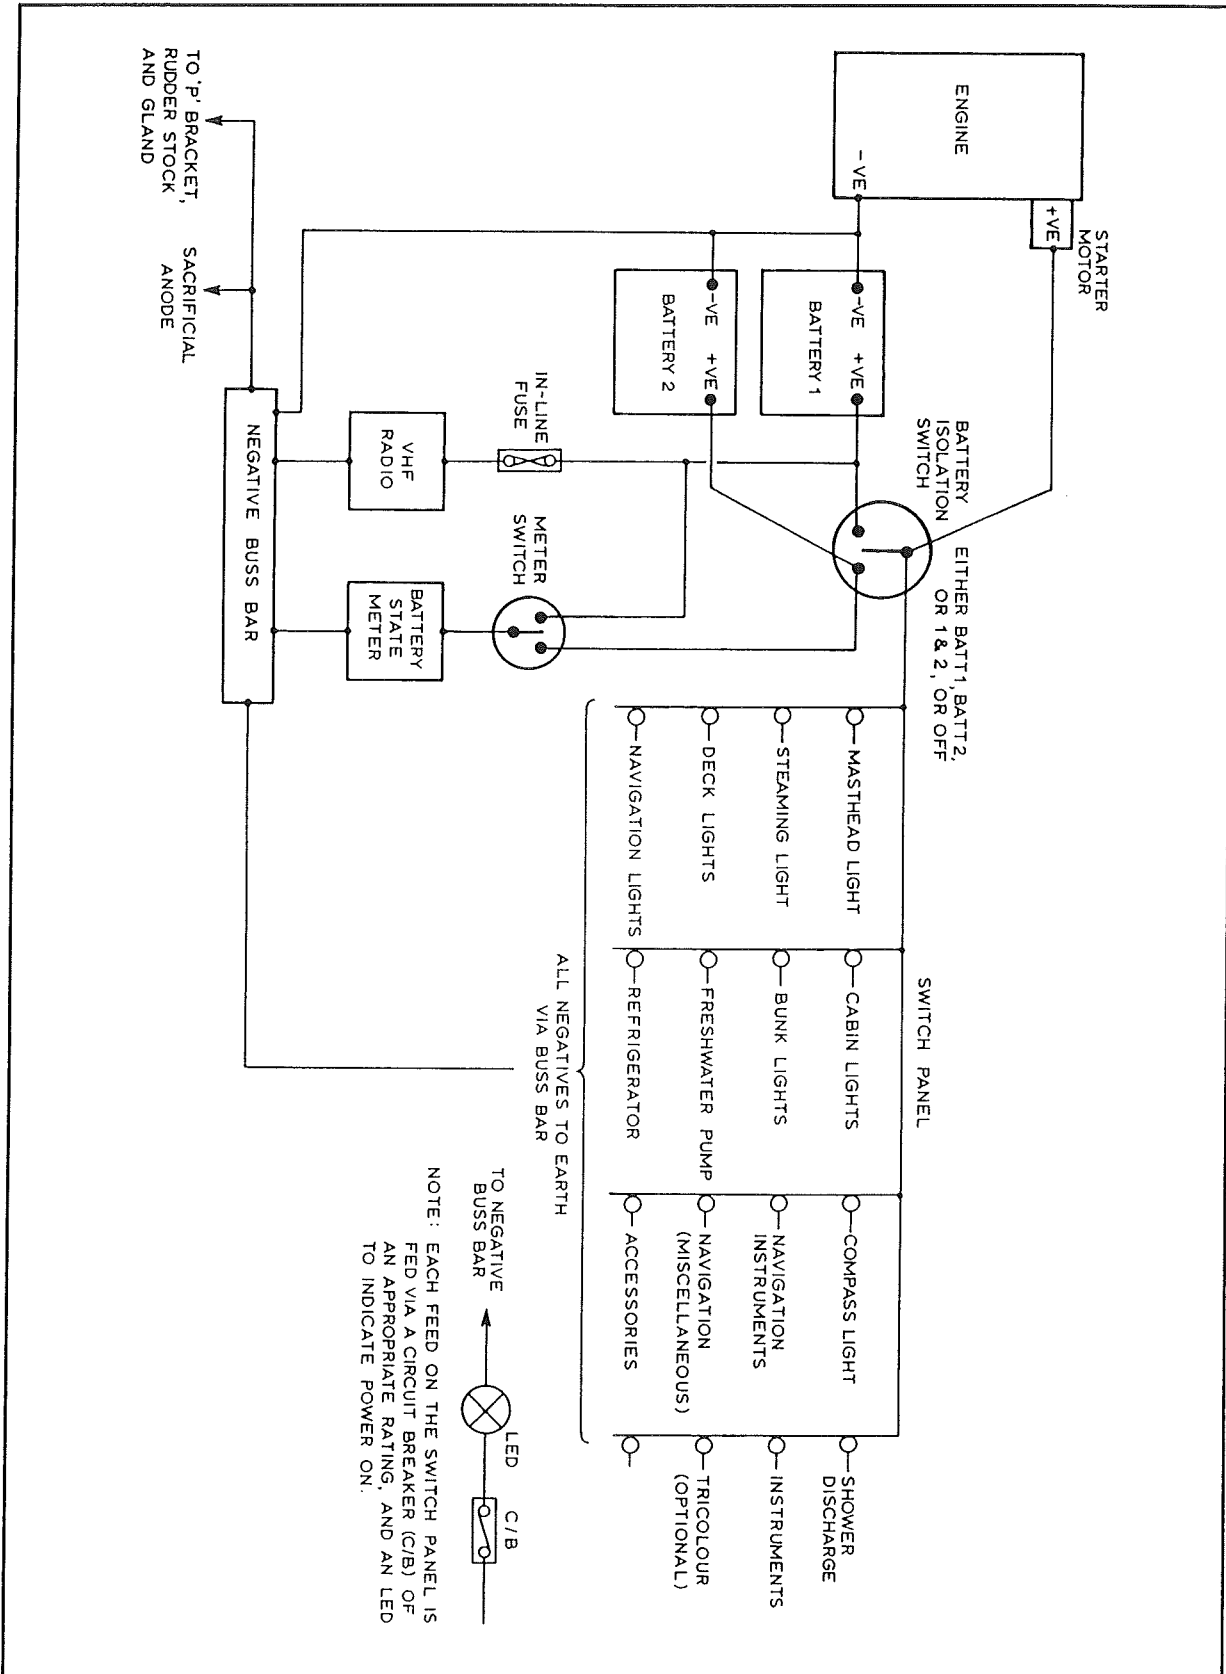

Where used, the inside steering is a 2-turn bulkhead unit with integral 2:1 multiplier which results in 4 turns of the wheel lock to lock. The system consists of:

2 conduits with fittings and 5mm stainless steel wire.

12" quadrant, bored and keyed to suit rudder stock.

2-turn tangential unit.

Clutched helm, it is recommended for reasons of safety that the inner helm be disengaged using the clutch when the cockpit steering station is in use.
